

Commercial Truck and Transit Parallelogram Models

Identifying Model Numbers

Lift Capacity (x 1000)	Platform Length (feet)	Installation Configuration
25	26	S
50	26	F

Examples:

25/26-S = 25,000 lbs. capacity 26' long platform surface mount.

50/26-F = 50,000 lbs. capacity 26' long platform flush mount.

Installation Configuration:

S Surface Mount

F Flush Mount

Model Number	Capacity	Product Specifics
25/26-S	25,000 lbs.	Runway style parallelogram lift 26' runway length Surface mount
36/28-S	36,000 lbs.	Runway style parallelogram lift 28' runway length Surface mount
36/28-F	36,000 lbs.	Runway style parallelogram lift 28' runway length Flush mount
45/35-S	45,000 lbs.	Runway style parallelogram lift 35' runway length Surface mount
45/35-F	45,000 lbs.	Runway style parallelogram lift 35' runway length Flush mount
50/26-S	50,000 lbs.	Runway style parallelogram lift 26' runway length Surface mount
50/26-F	50,000 lbs.	Runway style parallelogram lift 26' runway length Flush mount
50/32-S	50,000 lbs.	Runway style parallelogram lift 32' runway length

		Surface mount
50/32-F	50,000 lbs.	Runway style parallelogram lift 32' runway length Flush mount
50/48-S	50,000 lbs.	Runway style parallelogram lift 48' runway length Surface mount
50/48-F	50,000 lbs.	Runway style parallelogram lift 48' runway length Flush mount
75/30-S	75,000 lbs.	Runway style parallelogram lift 30' runway length Surface mount
75/30-F	75,000 lbs.	Runway style parallelogram lift 30' runway length Flush mount
75/48-S	75,000 lbs.	Runway style parallelogram lift 48' runway length Surface mount
75/48-F	75,000 lbs.	Runway style parallelogram lift 48' runway length Flush mount
100/42-S	100,000 lbs.	Runway style parallelogram lift 42' runway length Surface mount
100/42-F	100,000 lbs.	Runway style parallelogram lift 42' runway length Flush mount
130/30-S	130,000 lbs.	Runway style parallelogram lift 30' runway length Surface mount
