Are Your Hoists & Cranes In Compliance With OSHA Regulations?

DID YOU KNOW?

Per **OSHA Regulation 1910.179**, all hoists & cranes require, at a minimum, a documented annual inspection to be performed by a qualified inspector.

What is a Qualified Inspector?

Per **CMAA Spec 78**, a crane inspector shall have a minimum of 2,000 field hours of experience related to maintaining, servicing, repairing, modifying, and functional testing of cranes and associated hoisting equipment.

WHY CHOOSE SISSCO?

- ◆ **Experience:** Four decades of experience inspecting and servicing Overhead Cranes, Hoists, and Monorails.
- ◆ **Trained Technicians:** Our inspectors have all received extensive classroom and hands on training and all comply with CMAA 78 qualifications for crane inspectors.
- ◆ **SISSCO is Local:** 30 Hoist and Crane Technicians based out of our Hillsborough, NJ Location. On any given day most technicians will be within miles of your location to attend to any Emergency Breakdown Service needs.

Additional Benefits for using SISSCO for your Overhead Crane and Hoist Services:

- ◆ **SISSCO 24/7 Service:** We will always have a "on call" service representative to attend to your after-hours emergency service requests. A dedicated phone number will be given to you to handle these requests.
- ◆ **SISSCO Inside Service Support:** 7 In House Service Representatives, all who will be in tune with your business and your service needs. A key contact list will be given to you prior to starting your service.
- ◆ **Summary of Findings:** At the end of the inspection, we will provide you with a Summary of Findings which allows for a easier understanding of the status of your equipment from a safety and maintenance stand point.
